

Avoid Headaches! Avoid ADRs! Coding Competency for Home Health

Coding mistakes, improper sequencing and missing codes cause denials and cost your agency time and money...**Are you up to speed on the recent changes in coding?** These workshops are designed specifically for home health coders and provide the knowledge and critical thinking skills needed to code properly.

Session A: Coding Basics

This session is for coders with minimal coding experience (or for those who would like to brush up on their skills). This 1-day workshop will provide coders with the basic coding skills and crucial habits to be able to code properly. Participants will leave with increased confidence in their coding ability and be prepared to handle the most common home health coding situations. *Participants must bring a current ICD-9-CM coding manual to the workshop.*

Presenter:

Sharon Molinari
RN, HCS-D, COS-C
Board of Medical
Specialty Coding
Educator

Session B: Beyond the Basics

This session is for coders with intermediate/advanced coding experience (Session A attendees are welcome to participate as well). This 1-day workshop will cover coding complex scenarios with co-morbidities, increasing coding accuracy and an analysis of how ICD-9 codes impact risk adjustment & reimbursement. Participants will leave with increased confidence in their coding ability and be prepared to handle complex coding situations. *Participants should bring a current ICD-9-CM coding manual to the workshop.*
